

WHY IS IVL DIFFERENT?

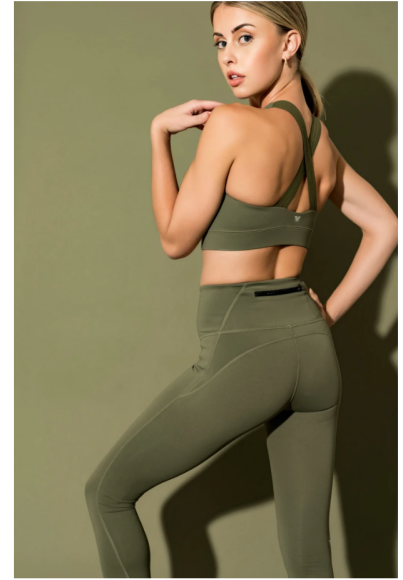

PERFORMS BEAUTIFULLY

Our activewear expertly marries chic design with advanced performance benefits, so women don't have to sacrifice style before, during, or after an intense workout.

HYDRASCULPT™ FABRIC

A collagen-infused fabric combined with innovative features like UPF50+ protection, anti-static and antimicrobial elements, creates truly a one-of-a-kind product.

GENTLE ON THE EARTH

We meticulously consider every step of the product life cycle – by using recycled materials, fewer chemicals and synthetic coatings, as well as upholding ethical factory standards.

TECHNICALLY FASHION

A disruptor in athleisure performance wear, IVL Collective creates innovative and cutting-edge fabrics in sleek, fashion-forward designs.

DEDICATION TO DETAILS

Throughout the design process, we adjust each piece to deliver the ultimate fit, buttery-soft feel, and polished streetwear aesthetic.
